

MARKETING WEBSITE · DESIGN SPECIFICATION V1.0

# The Colres landing page, ready to build.

Layout, colors, type, spacing, and every section of the public site at 1440 px desktop and 390 px mobile, with measurements for building it pixel-for-pixel in apps/marketing with Tailwind v4 and @repo/ui.

---

**Product**

Colres: collaborative research writing

**Target**

apps/marketing (Next.js 16, Tailwind v4)

**Base system**

@repo/ui tokens (indigo · teal · slate)

**Date**

28 September 2026

# Page architecture & contents

POSITIONING

## The research editor that already knows the format.

Colres is a real-time, multi-author editor for academic papers. Start from IEEE, APA, ACM, Springer or thesis templates, cite as you type, and see every page exactly as it will print. Your team discusses the work in the same place.

- Students
- Research groups
- Supervisors
- Universities

PRIMARY CTA

**Start writing, it's free** → /sign-up on the web app. Same label everywhere.

SECONDARY CTA

**Browse templates** → #templates. Low-commitment path.

VOICE

Plain, confident, specific. Name real formats (IEEE, APA 7). No "revolutionary", no "AI-powered" as a headline.

# Color system

Matches packages/ui/src/globals.css

| Shot overlap      | bleeds into S2 by 120   |

ANNOTATIONS

- 1 Logo mark: 32 px squircle, brand gradient 135°, white "C" glyph. Links 15/500 slate-600 → slate-900 on hover. Active link has a 2 px indigo underline, offset 26.
- 2 Eyebrow pill links to the changelog. Keep it to one line.
- 3 Display 64 px, two lines at 1440. "together" uses the brand gradient text.
- 4 Primary btn–lg indigo-600 + secondary white outline. 12 gap. Reassurance line below at 14 px.
- 5 A real product screenshot in the final build. Keep the chrome: presence avatars, paged IEEE page, references rail. Floating proof cards drift ±6 px (motion, p.15).

Built for the formats your paper will be judged by

WHY COLRES

2

Your paper lives in five tools.  
It should live in one.

Drafts in a doc, references in a manager, formatting in LaTeX, feedback over email, discussion in a group chat. Every hand-off costs you a day and adds a mistake.

Formatted from the first word

Templates enforce the venue's rules as you write: columns, heading numbering, captions, page size.

Replaces

Word styles, LaTeX class files

Citations that keep up

Insert a source and the number, author–date label and reference list update themselves, in IEEE or APA.

Replaces

Reference managers, BibTeX

One room for the team

Co-write live, comment on a sentence, and chat with files and voice notes next to the draft.

Replaces

Email threads, group chats

GRID

|         |                                   |
|---------|-----------------------------------|
| Columns | 12 · gap 24                       |
| Row 1   | 7 + 5 · h 330                     |
| Row 2   | 4 + 4 + 4 · h 300                 |
| Card    | r 16 · p 32/28 · border slate-200 |
| Chip    | 26 h · r full · 12/500            |

ANNOTATIONS

- 1 The hero tile is the paged view, the feature competitors don't have. The two paper sheets tilt -3° and +2° and straighten on hover (200 ms).
- 2 Chip color follows the pillar mapping from p.06. The single dark tile (AI) is intentional: one dark card per grid, never more.

HOVER (ALL CARDS)

|        |                  |
|--------|------------------|
| Lift   | translateY(-2px) |
| Shadow | sm → md          |
| Border | → indigo-200     |

TABLET / MOBILE

Tablet: 2 columns (big tiles span 2). Mobile: single column, in order Paged, Citations, Collab, Figures, AI.

# Deep-dives: Templates & Citations

Alternating 50/50 rows · 1 : 1

1

Templates

## Start from the format, not a blank page.

Pick IEEE, APA 7, ACM, Springer LNCS, Elsevier or a thesis. Title block, section order, numbering and page geometry come with it, and guidance notes tell you what each section needs.

- ✓ Roman section numbering and two-column layout for IEEE
- ✓ APA title page, running head and five heading levels
- ✓ Word-count targets per section

Prior work on federated optimisation [1], [2] assumes stable connectivity. Recent surveys [3] relax this assumption.

Q kairouz advances

Advances and open problems in federated learning

Kairouz, McMahan et al. · 2021 · Found. Trends ML

Federated learning: challenges, methods...  
Li, Sahu et al. · 2020

### REFERENCES

[3] P. Kairouz *et al.*, "Advances and open problems in federated learning," *Found. Trends Mach. Learn.*, vol. 14, 2021.

Citations

## Cite in two keystrokes. The bibliography writes itself.

Search your library, or add a source by DOI. Colres numbers citations by first appearance, merges ranges like [1]–[3], and keeps the reference list in the exact style your template asks for.

0

manual renumbering

6

citation styles

### DEEP-DIVE ROW

Row pad 128 Y (shown 64 to fit)

Split 6 / 6 · gap 64 · center

Heading h2 · 38 px variant

Visual win · r 18 · shadow-lg

Alternate text L/R · bg slate-50/white

### ANNOTATIONS

1 Chip → h2 → body → 3 checks → text link. The same order in every deep-dive keeps it scannable.

2 The visual shows the **moment of value**: a citation picker over real prose, with the reference list updating underneath. Animate the list item fading in (400 ms) when the section enters the viewport.

### STAT PAIR

28/700 figure + 14 px caption, 3 px left rule in the pillar color. Only use numbers you can defend.

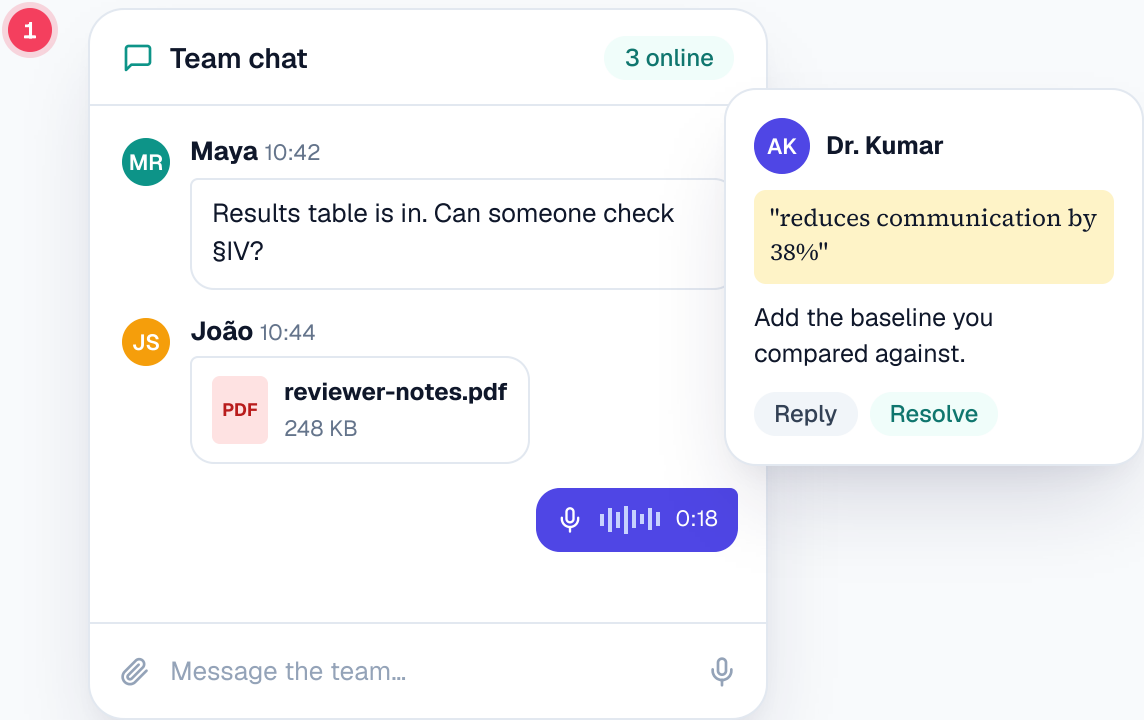

# Deep-dives: Collaboration & Research assistant

Collaboration

## Your co-authors, your supervisor, and the draft. Same room.

See who's writing where. Comment on a sentence, not a page. Discuss it in team chat with PDFs, spreadsheets and voice notes, without leaving the document.

- ✓ Live cursors and presence
- ✓ Threaded comments with @mentions
- ✓ Chat with files, images and voice messages

### ANNOTATIONS

- 1 Two overlapping surfaces: chat window (340 w) plus a floating comment card overlapping by 60 px. Show a PDF attachment and a voice note, the two things competitors lack.
- 2 The suggestion list has three states: **suggested** (match % in teal chip + "Cite"), **hover** (border indigo-200) and **already cited** (60% opacity + "Cited [n]").

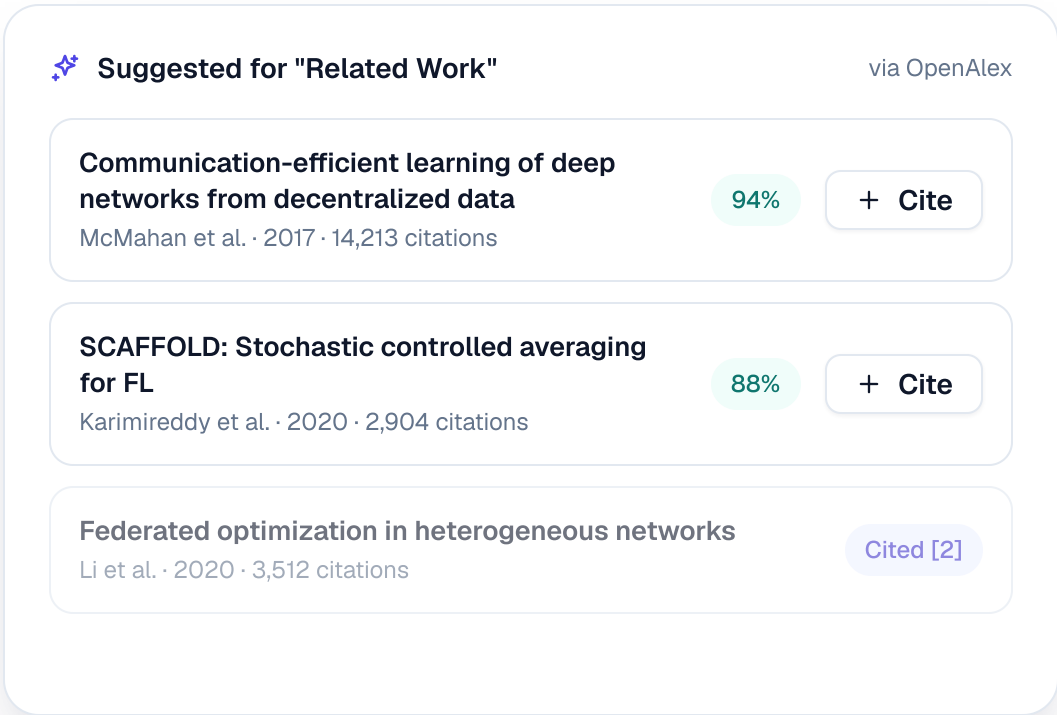

### TONE RULE FOR AI

Frame AI as **finding sources**, not writing. Academic buyers are wary of generated text. Always keep the privacy reassurance box next to AI claims.

### CHAT BUBBLE SPEC

|          |                               |
|----------|-------------------------------|
| Incoming | white · border · r 4/12/12/12 |
| Outgoing | indigo-600 · r 12/4/12/12     |
| Avatar   | 28 · ring 2 white             |

2

Research assistant

## Find the paper your reviewer will ask about.

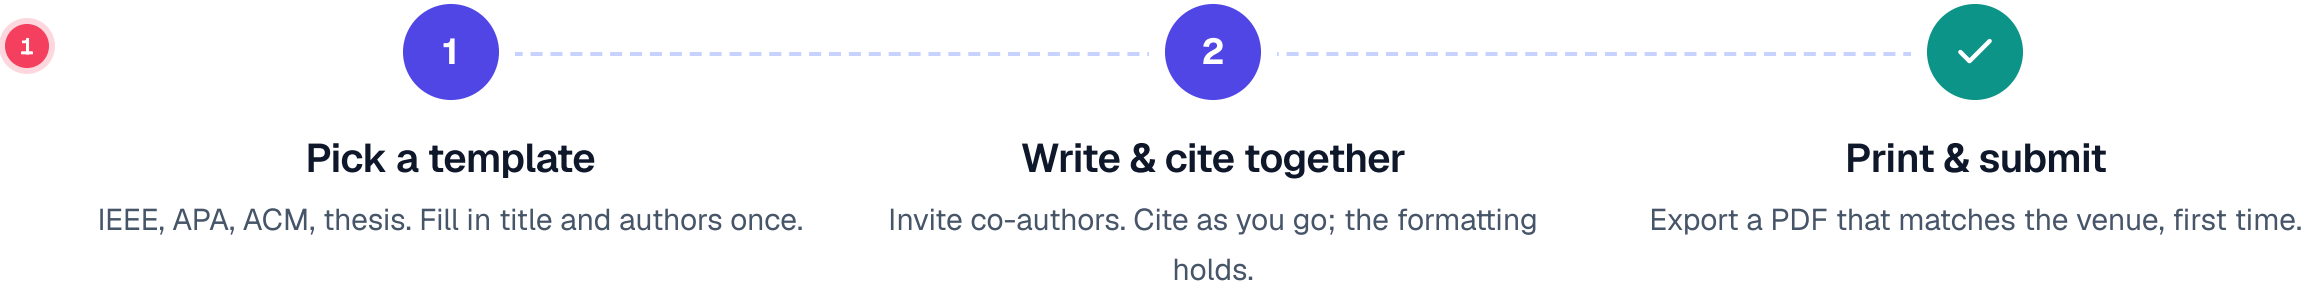

Colres reads the section you're writing and suggests related work from millions of scholarly records, ranked by relevance and citation count. One click adds it as a formatted reference.

🛡️ Suggestions come from open scholarly metadata. Colres never writes your prose for you, and your draft stays private to your team.

1

★★★★★

"We submitted to an IEEE conference without opening LaTeX once. Three of us wrote the same section at 2 a.m. and nothing broke."

NP

[Name]

PhD candidate, [University]

★★★★★

"Comments on the exact sentence. My students finally act on feedback instead of losing it in email."

SK

[Name]

Senior Lecturer, [Dept.]

★★★★★

"APA 7 references in the right order, with hanging indents. I didn't have to think about it."

RD

[Name]

MSc Psychology, [University]

## S9: TESTIMONIALS

1 Asymmetric 1.25 / 1 / 1 grid. The lead quote sits on indigo-600 at 20 px, the others on white at 16 px. **All names and quotes here are placeholders.** Replace them with real, consented quotes before launch.

## S10: PRICING

2 Billing toggle: segmented pill on slate-100, with a white active thumb and a teal saving chip.

3 The recommended plan lifts 12 px, gets a 2 px indigo border, indigo glow shadow and a "Most popular" tab chip. The third plan is dark slate-900, giving three distinct weights.

S11: FAQ

1 Use a shadcn Accordion (single, collapsible). The open item has an indigo minus icon; closed items have a slate-400 plus. Question 17/600, answer 15/400.

Suggested questions: LaTeX, styles, guest commenting, privacy, export formats, offline use, student verification.

S12: FINAL CTA

2 Contained band (not full-bleed): r 24, brand gradient 110°, dot texture fading in from the left. White primary button + ghost-white secondary.
